Subject: Federal CCR Notification - Initiation of Closure - 40 CFR 257.102(g)
Date: Friday, March 13, 2020 10:15:00 AM
Attachments: [image001.png](#)

Sharon,

Pursuant to EPA's CCR Rule at 40 CFR Part §257.105(i)(7) and §257.106(i)(7), GenOn Power Midwest LP is providing notice that we intend to initiate Closure by Removal of CCR for the Bottom Ash Emergency Pond (#0272216) and Bottom Ash Recycle Pond (#0272216) located at the Cheswick Generating Station.

A qualified Professional Engineer will be contracted to inspect, verify and certify that closure activities are completed in accordance with the Closure Plan specified in 40 CFR Part §257.102(b) and the protocols for Closure by Removal of CCR per §257.102(c). Accordingly, CCR removal and decontamination of the unit will be complete when constituent concentrations throughout the CCR unit and any areas affected by releases from the unit have been removed and groundwater monitoring concentrations do not exceed the groundwater protection standards established pursuant to §257.95(h) for constituents in Appendix IV.

This notice will be placed in Cheswick's operating record on March 13, 2020 and will be available within 30 days on our public website:
<https://www.genon.com/ccr-rule-compliance/>.

Should you require additional information or if you would prefer to have these notices provided to other contacts at the Department, please do not hesitate to contact us.

Thank you, Steve

Stephen M. Frank, PE (Pa)
Senior Manager, Environmental
